

# Connecting People & Places

Cities are **hubs of activity**—more than half of the world's population lives in a city

Whether you live in them or visit them, **you spend time in lots of cities**

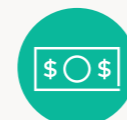

So, what if the **payment card or mobile device** you already carry with you was the **only ticket you needed to get around**—for your daily commute, night out or vacation

No more waiting in line for tickets and **no more confusion** when you're in new places

Mastercard is working with cities to make how we access public transit **simple, quick and consistent** all around the world

Making your trip **easier** and **saving cities money**

Making **smarter, seamless city experiences possible now**
